A SERMON ON SUCCESS.

There is a tide in the affairs of men,  
Which taken at the flood leads on to fortune,  
Omitted, and the whole voyage of life  
Is bound in shallows and in miseries.  
This text sounds poetical, it is very practical. We all know that of one who has been sometime in our lives when a difference action on our part would have materially changed all our future.  
The tide is now flowing in and at the top of the wave is an instrument which has reached the flood tide of musical perfection. This musical wonder is the lusty celebrated.  
W. W. WEBER PIANO CO.  
103 N. Spring St.  
No other make of piano has the strength and resonance of one combined with purity and sweetness which characterizes the Weber. The inventor of the Weber Piano took the opportunity offered and the flow of the tide of music bore him on to success. Happily for him the tide of fortune did not ebb so relentlessly as the waters of the sea.  
Remember the words of our text concerning a failure to grasp the effects of fate.  
If you neglect this opportunity for obtaining a Weber Piano, the factory may be destroyed or some calamity befall you that will remove all hope of your ever getting a Weber, and your children will be doomed to ignorance of what is the most perfect musical success.  
Don't take any chances on this, but buy a Weber Piano.

ANOTHER DROP.

It Upsets the Chicago Wheat Market.

The September Option Touches Lower Levels.

One of the Long Firms Has to Sell.

Over a Million Bushels for Quick Disposal.

Cash Wheat Opens at a Low Figure—Margins are Things Out of Consideration—Banks Will Not Buy Exchange.

By Telegraph to The Times.  
CHICAGO, July 31.—(Special.) For a few moments this morning there was, on the Board of Trade, no market for wheat. Before a single sale was made, cash wheat was offered at 3 1/2 cents per bushel, the lowest price ever quoted in Chicago.

The demand for wheat for export is good, but the money to handle it is not to be had at the banks. It therefore lies idle. But one firm failed today, that of Lyon & Hubert. They have liabilities of \$50,000, and will pay dollar for dollar if given time.

The grain shippers today simply laid down. Up to noon they did not take a single bushel, although a big fleet was on the market. The banks would not buy foreign exchange except at exorbitant rates. The situation is regarded as very critical.

UP AND DOWN.  
One of the chief reasons for the drop was also the fact that Lyon & Hubert, a large long in wheat, found it impossible to respond to margin calls and ordered their wheat sold out. Lyon's long line is supposed to be from 1,000,000 to 1,500,000 bushels, on which the losses are supposed to be from 10 to 15 cents per bushel. Thereafter it became quiet and comparatively steady, fluctuating within the extreme ranges of 3 1/2 and 3 3/4.

The same causes which have prevailed for some time controlled during the day—the gloomy financial outlook, inability of the long to get money to carry wheat, and the inability to take advantage of offers for cash wheat because of the impossibility of selling New York exchange.

LUMBER SHOVERS.  
They Engage in a Serious Conflict With the Police.

ASHLAND (Wis.) July 31.—(By the Associated Press.) A crisis was reached in the lumber-shovers strike this morning. The strikers openly defied the officers of the city and county, closing with them in a hand-to-hand battle, in which blood was shed freely.

The Shores Lumber Company sent word to Mayor O'Keefe that it had commenced long hours with non-union laborers, and asked for police protection. The Mayor sent Chief of Police Schwarz and some of the officers to the docks, where they were joined by Sheriff O'Brien and deputies. A great mob of strikers suddenly swarmed down. The foremost of them were forcibly handcuffed by the officers and others arrested, who were afterward rescued from the police by their fellows.

A desperate hand-to-hand contest followed. The officers were nearly all bruised with clubs and stones. The non-union men were struck down with clubs and terribly beaten. They fled panic-stricken, followed by the strikers. They were met by officers, who protected them from the violence. Forty of the rig-leaders among the strikers have been arrested. Mayor O'Keefe says that the president of the Lumber Shovers' Union assured him that no violence would be committed, and that the strikers will protect non-union labor at any cost.

NOT GROWING.  
The White City's Population Disappointing.

Mechanical Engineers Inspect Objects of Skill—The National Commissioners and the Silver Convention.

Admission, 7,000,000.

By Telegraph to The Times.  
CHICAGO, July 31.—(By the Associated Press.) The weather is fine and cool. A large attendance was present at the World's Fair. A large delegation of mechanical engineers visited the grounds, and were shown the work of engineering skill in the White City.

In the session of the National Commission today a resolution was offered for an adjournment until Wednesday, in order that the members might attend the Silver Convention.

The general session of the convention was adjourned by striking out the words referring to the Silver Convention and it was adopted.

Three months of the fair have now passed, and the total paid admissions for this time are just about 7,000,000. The expectation was that anyone could expect, but for unknown reasons, and, perhaps, owing to the dilatory work of the Silver Convention, the attendance up to this time has been disappointingly small. Unless there is a wonderful increase during the next three months, the exposition company will have a hard time to pay its debts.

The total admissions were 11,540, of which 7,250 were paid.

A Sensational Story.  
CHICAGO, July 31.—In connection with the grand jury investigation into the cold storage warehouse fire, a local paper tonight prints a sensational story to the effect that the fire was of incendiary origin, the incentive being a desire to cover up the wholesale theft of goods stored in the warehouse.

Various Assemblages.  
CHICAGO, July 31.—The opening of the World's Fair. Scottish Assembly was inaugurated today. There will be a great parade of killed highlanders, and a series of athletic sports at South Side Ball Park.

The general session of the Engineers' Congress began in the Art Institute today, with about four hundred delegates present, including many prominent foreigners.

FEARED STARVATION.  
A Despondent Farmer Kills His Family and Attempts Suicide.

ANTIGO (Ill.) July 31.—(By the Associated Press.) William Nonemacher, a farmer living nine miles southeast of here, murdered his wife and three children Saturday night and made an attempt to take his own life. The deed was not discovered until Sunday afternoon. Nonemacher told the coroner today that the crops were poor and that he was afraid of starving. His wife's parents were in Quebec, where they had come all the way from Germany, and they wanted money, but he had none to send.

He waited until all were asleep Saturday night, then, taking an ax, killed his wife with three blows on the temple, went into the next room and killed Joseph, 9 years old, and Willie, 4 years old. He struck both boys on the head twice. Returning to the room where his wife lay, he picked up the year-old baby, held her in one arm and crushed in her head with the ax. He then attempted to take his own life by jumping from the roof and landed on the floor of the pig-sty, sustaining injuries to his spine and paralyzing his lower extremities. Sunday afternoon his brother came from the adjoining farm and made the awful discovery. The murderer has been taken to Antigo and placed in jail, but probably will not live long.

Served a Purpose.  
NEW YORK, July 31.—The withdrawal of the deposits at many of the savings banks was quite heavy, and the presidents pointed to the lines waiting at the windows as a proof of the wisdom of the sixty-day attempt to enforce the sixty-day attempt to enforce the law. Because, while it brought the depositors there, the notice prevented excited runs, which would have followed uncontrolled action.

Fight Over Boundary Lines.  
OAXACA (Mexico), July 31.—The trouble between the towns of Macatepec and Tejalpa in this State, over the question of boundary lines, has culminated in a pitched battle. A number of people on both sides were killed and many wounded. A large detachment of troops has been sent to quell the disturbance.

The Bellingham Bay Bank.  
WHATCOMB (Wash.) July 31.—The Bellingham Bay National Bank did not open its doors this morning. The temporary suspension was caused by the constant withdrawal of deposits for the past many days. The assets are \$250,000, liabilities \$160,000. The bank officers expect to resume in a short time.

Daily Convicted.  
SAN FRANCISCO, July 31.—Daniel Daly, who shot and killed John Lawton and Thomas Carroll, when they broke into his room, expecting to find Michael Lawton's wife there, was today convicted of manslaughter for killing Lawton.

ON THE PLATFORM.  
There is Where Senator Vance is Standing.

The Chicago Convention Was for Free Silver.

A Substitute Compromise the Converse of Repeal.

United Action Will Be Urged at the Silver Conference—Director Preston Opposes the Colorado State Depository Plan.

By Telegraph to The Times.  
RALEIGH (N. C.) July 31.—(By the Associated Press.) Senator Vance last week wrote a letter to the Farmers' Alliance, in which, in reply to a question as to his position on the silver law, he said he was unalterably opposed to the repeal of the Sherman act unless some substitute was provided. He was severely criticised for the tone of his letter, and now replies in another letter. He says:

"The charge that a Democrat is at variance with his party who refuses to favor the unconditional repeal of the Sherman law is a gross misstatement of what the party laid down in the platform at Chicago. If promises and pledges amount to anything, the Chicago platform defends the repeal of the law as an obstruction from the coinage of silver. The obvious meaning is that if the law were out of the way we could have free coinage. That is one of the things I propose to put in the place of the Sherman law, and I propose to vote against repeal unless that be done."

"If my party is opposed to that, then the utterances at Chicago were intended to deceive. If they were sincere, then I am trying to stand on the platform. It pledges the party to the use of both gold and silver without discrimination. If we cease to coin one, and refuse to tender it in payment even of the obligations which by contract are payable therein, we do discriminate against that metal."

"The men of common sense, who are loyal to the purposes they profess, will not surrender the advantages of their position. The law now in existence can be kept there by the non-concurrence of either the Senate or the House, or the President to its repeal; whereas the Sherman law once repealed, the measures which are to take its place would have to be passed by affirmative legislation, requiring the concurrence of both branches of the law-making department, and no sensible man, acquainted with the situation, will believe that these measures could be passed under such circumstances."

THE CONFERENCE.  
Its Resolutions Will Demand a Greater Volume of Currency.

CHICAGO, July 31.—(By the Associated Press.) There will be a declaration of war tomorrow, and the signal for hostilities will be given by the combined convention of Populists, free-silver men and Greenbackers. The force to be 'outlawed' will be the 'money power,' and this generalization is so broad that it is designed to include the capitalists of Europe as well as the money barons of Wall street.

The scenes following the imposition of the stamp and other taxes so hotly contested and indignantly denounced by the colonial fathers of 1776, would have been a fitting parallel to that of the present day. The lobbyists today by the popular arraignment of the attempt which, it is asserted, is now being made by Great Britain and the monetarist monarchies of Europe to coerce the United States into a financial dependency upon the fiat of the Old World. The laws of supply and demand, the result of over production, found no place in the arguments for every suggestion of this kind was rebuffed by a startling array of statistics, silver men and Greenbackers. The closing of the mint, the prohibition of free coinage in Europe, and the demand of Wall street for the repeal of the Sherman bill were but parts of a great conspiracy against the silver republics of the Western Hemisphere. It is the opinion, too, of the delegates now assembled that

Twenty-eight Rounds of Hard Punching—Knocked Down Five Times in the Twenty-seventh—Baseball and Race.

By Telegraph to The Times.

ROBY (Ind.), July 31.—(By the Associated Press.) The lightest finish fight between Paddy Smith, brother of "Denver" Ed Smith, and "Young Corbett," otherwise known as George Green, at the Columbia Athletic Club, attracted about five thousand people to the fight. The fight was for a purse of \$5000, of which \$500 went to the loser. This was "Young Corbett's" first finish fight, and his name-father, Champion Jim Corbett, was there to see it. The latter was received by the audience on entrance with a great demonstration.

The curtain-raiser tonight was a ten-round bout between Henry Baker and William Mayo, both of Chicago, for a \$1000 purse. Both were heavyweights, but although Mayo weighed nearly fifteen pounds more than Baker the latter won in the sixth round, after some furious fighting, in which both men were badly punished. Baker succeeded in landing a knock-out blow on Mayo's neck.

During the interval, President O'Malley of the Columbia Club, stepped to the front and made the announcement that the match between Corbett and Mitchell would be held in this club. "I have," he said, "the articles of agreement signed by Charles Mitchell and John Donaldson, with Zeke Abrams as time-keeper. The referee was Siler. Jim Corbett sat in his protective corner, but took no active part. It was nearly 11 o'clock when time was called.

The first two rounds were good exhibitions of boxing, each man being very shifty. In the third round he started rushing tactics, landing on Smith's forehead, but Paddy returned a hard one on the neck, knocking Green to the ropes. Green led again, landing on Smith's head, and in this juncture the electric lights went out, and the referee parted the men. After a delay of over half an hour oil lamps were brought into use.

The men came up fresh for the fourth round, which was another exhibition of cautious sparring. Toward the close, Smith used his elbow on Green's neck, and loud cries of foul were heard. Both landed heavily just as the gong sounded.

Fifth round—Smith rushed Green around the ring, but suddenly Green landed with the left with good effect. Smith did some dirty fighting in a clinch, and the referee warned him. Sixth round—Smith again tried unfair work, and was again warned by the referee.

Seventh round—After sharp exchanges and hard fighting, Green upper cut with good effect, but Paddy came back with a twing on the neck which staggered Green.

Eighth round—Smith landed on Green's stomach, but Green returned a right on the neck, knocking Smith to the ropes.

Ninth round—Green landed on Smith's left eye, raising a lump; then upper-cut, when Smith clinched to avoid punishment. Green seems weak. Smith butts him, and is warned by the referee.

Tenth and eleventh rounds—Smith seems determined to land a knock-out blow, but his swings all fell short. Green lands several times, but his blows lack force.

Twelfth round—After hard fighting, Green landed on Smith's neck, staggering him.

Thirteenth and fourteenth rounds—Considerable infighting was done, but Green's blows did not seem to count, and Smith had the best of it.

Fifteenth round—After sharp infighting, Smith knocked Green to his knees.

Sixteenth round—Green landed a hard one on Smith's mouth, swelling Paddy's lips.

Seventeenth round—Smith rushed Green, landing a swing on the neck which sent Green to the ropes. Green landed on Smith's nose, and is credited with first blood.

Eighteenth and nineteenth rounds—Green now seemed to be regaining strength and landed on Smith's nose and upper-cut him with good effect.

Twentieth and twenty-first rounds—Several hot exchanges, but no serious damage.

Twenty-second round—Smith drew blood from Green's nose, but was aggressive, but did not inflict any punishment on Smith, while he got two or three heavy blows himself.

Twenty-third and twenty-fourth rounds—Green rushes Smith around and lands some good ones on the neck and body.

Twenty-fifth round—Green landed hard on Smith's ear, and, in spite of a sharp return, rushed Smith to the ropes and had everything his own way at the call of time.

Twenty-sixth round—The aspect of affairs changed. Green was knocked down by a swing on the jaw. He got up before he was counted out, but Smith knocked him down five times in succession. Green finally clinched to avoid punishment. This was the hottest round of the fight.

Twenty-seventh round—Green came up apparently fresh, but Smith landed square on his nose, and he was unable to throw up the sponge, but Green would not quit until Champion Jim Corbett went into the ring and made him stop.

There was a riot outside of the arena caused by a mob of roughs attempting to enter to see the fight. Pinkerton detectives went out to quell the disturbance and they met with a shower of stones. Some one in the crowd fired three or four shots from a revolver and an unknown man was shot above the heart. Physicians say he cannot live.

Elting and Ryerson, having each won this round by default, started against each other to open the third round, Ryerson winning.

## The Occidental Hotel Narrowly Escapes Damage.

## Losses About Three Hundred Thousand Dollars.

Actor Curtis Delays His Murder Trial—An Attempt to Destroy the Providence Mining Works—Other Coast News of Interest.

By Telegraph to The Times.

SAN FRANCISCO, July 31.—(By the Associated Press.) A \$200,000 fire occurred here this evening, the principal losers being Buyer, Reich & Co., wholesale fancy goods dealers, and Buckingham & Hecht, boots and shoes.

The fire started upstairs in the building of Buyer, Reich & Co., on Bush street, near Montgomery, directly after 6 o'clock, and spread rapidly through the building. Three alarms were turned in and every engine in the city was called to the scene. A dense volume of smoke poured from the windows, and it was with great difficulty that the firemen were able to reach the flames.

It seemed inevitable that the fire would spread and take in the Occidental Hotel adjoining. As it was the flames ate their way into Buckingham & Hecht's and inflicted much damage. H. S. Crocker & Co., wholesale stationers and printers, also suffered somewhat. By hard work and by flooding the buildings with water, the flames were finally subdued.

The losses are given as follows: Buyer, Reich & Co., \$250,000; insurance, \$100,000; Buckingham & Hecht, \$50,000; no insurance; H. S. Crocker & Co., loss nominal. The origin of the fire is unknown.

McLAUGHLIN SURRENDERED.

Dynamite Used on the Works of the Providence Mining Co.

NEVADA, July 31.—(By the Associated Press.) At 1 o'clock this morning John McLaughlin, who assaulted Charles Runge on Saturday night, was surrendered by his bondmen and lodged in jail. His bail was at the same time raised to \$10,000, owing to the unfavorable symptoms of the injured man.

Last evening some miscreant attempted to blow up the water-pipe belonging to the Occidental Hotel. He exploded a stick of giant powder on top of the pipe, but only succeeded in causing a partial breakage. The water continued to flow, and it took the pump going until the line could be repaired.

The outrage was probably committed as a demonstration of the company because the company had employed McLaughlin as foreman. The miners and citizens generally condemn the act as infamous, and the corporation is detected it will go hard with him.

STANFORD'S HORSES.

Sales of Over One Thousand Head of Blooded Stock Will Be Held.

SAN FRANCISCO, July 31.—(By the Associated Press.) The Chronicle says it has been decided by the managers of the Stanford estate to dispose of over one thousand blooded horses from the celebrated Palo Alto and Vina ranches and retain only a nucleus from which to continue the work of breeding fine horses inaugurated by Senator Stanford.

All the get of the famous Electioneer and his family, of Neptune, Gen. Benton, George Wilkes, Nutwood and others, will be placed under the hammer. Four or five places have been decided on to begin the sale. They are at Sacramento, Lexington, Ky., and New York and Chicago at times ranging from next month to next year. The principal reason assigned for the sale is that the stock has accumulated to such an extent that the farm will not sustain them.

BETTER TIMES.

Green and Dried Fruits Being Handled at Frisco.

FRESNO, July 31.—(By the Associated Press.) The dull times seem to have come to a close. A large number of women and girls are now being employed by the packing-house handling green fruit. The men are also being employed to pack the fruit. The market is better, and the prices are higher.

A CHINESE WIFE.

PORTLAND (Or.) July 31.—United States District Judge Bellinger has rendered an important decision in the case of the Chinese woman Tsui Gum, wife of Me Kim, a Chinese merchant. The woman was refused landing by the Collector of the Port on the ground that she was only the mistress of Me Kim. Judge Billinger, however, held that they were justly married, according to Chinese law, and she therefore was allowed her to land.

THE MONTEITHS.

The District Attorney Moves to Dismiss Their Libel Suit.

SAN RAFAEL, July 31.—(By the Associated Press.) George W. and John Monteith today asked to have the prosecution of their various libel cases taken out of the hands of Dist. Atty. Cochrane, and to have the cases prosecuted by the Monteiths. The District Attorney contended that he was able to conduct the case himself and the court so ruled.

The District Attorney then moved to dismiss the libel cases against Hon. W. B. Bowers and the editors of the National City Record on the ground of impossibility of conviction. He produced an affidavit which represented the opinion of more than 200 San Diego people, and one of the Monteiths stated that he would like to have two weeks time in which to appeal to the Supreme Court and to be allowed to assist in the prosecution, and the court postponed a decision on the dismissal of the cases until that time.

AN ECCENTRIC TESTATOR.

A Wealthy Merchant Bequeaths His Body for Dissection.

OLYMPIA (Wash.) July 31.—(By the Associated Press.) With the curious bequest of contributing his body to a dissecting table "for the benefit of humanity," and after having kept two pistols by his side for ten years with which to avoid a lingering illness, of which he had a horror, Francis Hoffman, a wealthy merchant of this city, died today, three hours after an operation.

He left an estate valued at nearly \$200,000. When the final operation came, Hoffman warned his physician that the time must be 9 o'clock, not one minute sooner or later. Hoffman's trouble was hernia. He left half of his property to his wife. He made a request that his wife see that his only

## A Quarrel Over a Game of Cards Results Fatally.

VISALIA, July 31.—(By the Associated Press.) Walter Haskaway, who was shot in Dinuba by the courtess named Frankie Hall of Duarte, the Mexican woman, died today at 1 o'clock. He did not make any ante-mortem statement. The murderer is in jail. The murdered man and woman had a quarrel over a game of cards a few days ago, and angry words were exchanged. Yesterday he tried to get into her room, when she shot him. He lived with Lucretia, the sister of the murderer.

## ROSS OULIV.

The ex-Policeman Convicted of Subornation.

STOCKTON, July 31.—(By the Associated Press.) The jury this afternoon found A. J. Ross, formerly a police officer of this city, guilty of subornation of perjury, for having worked up the case of the will of Joseph McKinney, the negro who died at Banta a few months ago, worth about \$40,000. The negro widow, Maud Kline-Nicholas, who made the confession, indicated for perjury, but will be dealt with lightly.

CURTIS IN CONTEMPT.

The Actor Fails to Respond in His Trial for Murder.

SAN FRANCISCO, July 31.—(By the Associated Press.) When the case of M. B. Curtis, the actor, who is accused of the murder of Policeman Grant, was called, today, Curtis failed to appear. A bench warrant was issued for his arrest. Curtis was released from custody on \$50,000 bail.

The actor's attorney appeared and apologized for his absence, saying that he had been detained at Tracy. He was cautioned to appear at the proper hour tomorrow, but the bench warrant was not rescinded.

An Absconder Found.

SPRINGFIELD (Ill.) July 31.—At a late hour last night the agent of the American Express Company received a dispatch from the Chief of Police at San Diego, Cal., stating that a man named "Samuel" had been found in Mexico near San Diego. Requisition papers will be secured if possible.

NEW YORK, July 31.—A dispatch was received this afternoon by the Nicaragua Canal Company from the agent at Granada stating that peace had been restored in Nicaragua.

PENSION RULINGS.

Assistant Secretary Reynolds Explains the Department's Policy.

PITTSBURGH (Pa.) July 31.—(By the Associated Press.) Judge Smith of the County Court, wrote to Assistant Secretary of the Interior Reynolds about the recent suspension of many pensions. He has received a lengthy reply from Mr. Reynolds explaining the policy of the administration, in the course of which he says: "Commissioner Raum treated disabilities not of service origin the same as disabilities which were. The present Secretary having found the erroneous orders of Raum unrevoked, and claims adjudicated thereunder unquestioned could not otherwise than revoke these orders, providing a new one in accordance with the law for future practice, and order a re-examination of prior adjudications." He also stated that the pensioners were exposed to the January 7 of this year, after \$21,130 cases had been adjudicated in pursuance thereof. The administration would be a party to the perpetration of a non-suspension of the pensioners, and the class of its pensioners remained unexamined. Members of the Board of Revision for this purpose are not all Democrats, and its chief, notably, is a Republican. The pensioners are not to be removed before full investigation.

"If the record shows an illegal pension, the claim is suspended and the pensioner allowed sixty days in which to file testimony in rebuttal; if his right to remain in pension, the suspension is removed, otherwise his name is stricken from the rolls."

In conclusion, Reynolds says: "We are simply correcting the abuses and placing all pensions under the act of June 27, 1890, on an equal basis. The pensioners are not to be removed before full investigation."

Exciting Runaway.

Electric Light Demolished and a Horse Badly Crippled.

Yesterday afternoon about 2 o'clock a runaway took place on First street, which, but for the coolness of Charles Johnson, the driver, might have resulted in the destruction of considerable property. If not actual loss of life. A loaded two-horse dray wagon belonging to Dodd & O'Garra, the contractors, was carrying things with a high head between Broadway and Hill streets, when the brake broke, and the wagon started at a rapid rate down the incline. The driver retained the presence of mind, and managed to escape several times. The frightened horses then dashed across Broadway, when the heavy wagon came in collision with the electric light post in front of the Times office, the driver jumping as it struck. The electric light was demolished, but the post stood firm and stopped the team. One of the horses was jammed between the wagon and the post, fracturing a leg just above the stifle joint, and will probably have to be shot.

Had the wagon passed the corner the damage must have been considerable, as the street was filled with vehicles and a cable train was just coming into First street, and a series of smash-ups would have been the result. The driver, Johnson, escaped without injury.

The "Countess" in Town.

It is reported that the notorious Countess Vesta Hastings is again in the city. This erratic young woman was last heard from in Mexico, where she was carrying things with a high head. Yesterday it was stated that the woman had been in the city and was domiciled in a lodging-house at First and Los Angeles streets, where she was living in the strictest seclusion, never leaving her room and having her meals sent from an adjacent restaurant. Inquiry was made at the house mentioned, but the proprietress insisted that the Countess was not in, although she said that if she came to the city she would certainly come to her house. If the woman really is in the city, and several people insist that she is, there will be trouble in the near future.

Tried to Steal a Dog.

An attempt was made by an Italian on Fifth street yesterday afternoon to steal a dog belonging to a lady. A man who changed to be near by gave the thief a severe drubbing so that he probably will not try to repeat the performance.

## How Baggage is Handled at La Grande Station.

## Another Little Reduction in the Chicago Passenger Rates.

A Prediction About the Round-trip Rate—Big Lot of Trunks Forwarded—General and Local Railroad Mention.

The baggage-room of La Grande Station of the Southern California, dedicated last Saturday, deserves more than a passing notice. It does not seem as small as was anticipated from the plans, for good arrangement has been made much to utilize the available floor space. Division Baggage Agent Harry Isaacs has caused everything to be in ship-shape for the rapid and proper handling of keisters. One innovation he has introduced will serve to prevent claimants getting the wrong trunks. Every baggage man and expressman is required to use duplicate brass checks when he accepts a piece of baggage, giving the owner a duplicate to the one he attaches to the trunk or valise. The owner, to claim his baggage, at the station must present his check. Mr. Isaacs has a complete system of keeping track of all baggage handled on the road by means of the train baggage handlers' report, filed in convenient order. Last year the Santa Fe force checked and forwarded from Los Angeles near 160,000 pieces of baggage. On a floor built over the Pullman office, adjoining the main room, is kept the "unclaimed" baggage and the supply of checks for other portions of the system. The unclaimed baggage is an inconspicuous heap of stuff varying, as far as can be seen, from a bunch of tin buckets or bundle of bedding to a well strapped saratoga. All this stuff is sold "without reserve" one of these days. Mr. Isaacs's helpers are spry, accommodating and courteous and are not baggage "smashers."

PRESIDENT REINHART ON FINANCES.

CHICAGO, July 31.—(By the Associated Press.) President Reinhart, of the Santa Fe system, speaking of the general railroad situation, said it is true the traffic has fallen off greatly of late, but most of the large roads forecast this and began to prepare for it months ago. The reduction in expenses has kept pace with the reduction in traffic, and a final settling up will show net earnings on most roads as large as last year. Mr. Reinhart said he did not of the opinion that there is any foundation in the many rumors in circulation to the effect that a general passing of dividends is to be expected. Such rumors are put in circulation by irresponsible parties who would do other property and want to buy it back cheaper. Such men ought to be in the penitentiary. With them originated the report that the Santa Fe will follow the Erie into the hands of a receiver.

A passenger train yesterday gave it as his opinion that the round-trip rate to Chicago will soon be reduced to \$94.50, and will go no lower.

Today a new set of reduced passenger rates to Chicago go into effect. The reduction amounts to \$1.50, leaving the one-way rate \$51.05 first class, and \$47.25 second class.

Myer Mendelsohn, ticket agent at La Grande station, thinks that he has the finest quarters on the Coast. The ticket office has plenty of room in it, and is most conveniently arranged.

General Manager Brown, of the Burlington company, says that the day the diamond-studded watches to Frank Roberts, James A. Peebles and Calvin E. Allen, trainmen, who saved Kansas City No. 4 from attack by train robbers, near Council Bluffs, June 16.

In an article printed in yesterday's Times, accredited to the Cincinnati Times-Star, appeared the statement that the Santa Fe Company pays out annually \$25,000,000 in interest on a total bonded indebtedness of \$500,000,000. According to Moore's Manual, an authority on railroad finances, the amounts should be about one-half the above figures. The interest charges are given at \$10,700,000.

W.C.T.U. School of Methods.

The School of Methods of the W.C.T.U. of Southern California will hold its second session at Long Beach August 9 and 10. One of the features of the meeting will be the grand gold medal contest, for there are ten contestants from the six southern cities. The contestant winning the grand gold medal will be entitled to contest for the diamond medal at the next national W.C.T.U. convention.

The Burton Mound sulphur bathhouse is being enlarged and several tubs added. It will be quite convenient to "soak in blue" the coming two weeks, and the hot sulphur baths may benefit some of the "thummers."

A hobo named Paddy Wright entered the rear room of East Green at the White House, Sunday evening, and stole \$20 out of Owen's trunk. He was arrested and returned part of the money, but it is not known whether or not the prosecution will be pushed.

ESCONDIDO.

A new bank is getting ready to open up in Escondido within a few days. This simple statement any one will recognize as meaning a good thing, for when banks are falling everywhere, the Bank of Escondido being one of the only ones in the county that are not, is a business as ever during the recent panic through California. The crops are large in this section, and money is coming in, making the community sufficiently prosperous to warrant another institution in opening up for business. The building is being fitted up, the safe and fixtures being here already. Nebraska men are the head of it.

There is a truly a larger acreage of grain than ever before, but the yield is very good also, making the output unusually heavy. One firm has sold over 30,000 sacks, and expects to sell at least 20,000 more before the season is over.

Of course the election for retiring directors of the bonds of the irrigation district carried by a majority, there being but two votes against it. The vote was light, it being a foregone conclusion that the retiring directors would be re-elected. There are said to be three responsible parties figuring on taking the bonds as a matter for putting in the entire system. With only \$250,000 the district is not a large one, it would seem that if there were any chance to dispose of anything of the kind in these times, they ought to get buyers.

## HE WANTED TO DIE.

## Attempted Suicide of a Despondent Printer.

## A Printer named Eugene B. Bennett made an unsuccessful attempt at suicide at his room at No. 85 1/2 South Spring street yesterday morning.

A smell of gas attracted the attention of the landlady late in the forenoon, and the door to the man's room was forced in. It was found that he was nearly unconscious. The police were notified, and he was removed to the receiving hospital, where he was attended by Police Surgeon Bryant.

After he had been taken away a letter was found under his pillow. It stated that his wife did not love him, and that his disinterested friends were all dead. A piece of paper of about the same tenor was found in his room also.

Arrested for Burglary.

Word was received from Ventura yesterday asking that Frank Trainor and Charles Myers, both wanted for a burglary there, be arrested if found here. Detectives Auble and Bensen were detailed on the case, but the men had already been arrested and were at that time in the care of Jailer Collihan.

The men were recognized about as soon as they came into town and were promptly taken by the officers who do not wear uniforms.

Disturbed the Peace.

Peter Paul and J. Royer were arrested for disturbing the peace on Alameda street by Officer Stephenson yesterday afternoon. Royer asked that he be not compelled to ride in the patrol wagon and stepped into a box car for a moment. He walked to police headquarters where he was released by Clerk Hensley after giving a sufficient bail for his appearance in court.

SANTA BARBARA COUNTY.

Santa Barbara's Exhibit Pays—Anderson's Trouble—G.A.R. News.

The question has often been asked of the Times correspondent, "How is Santa Barbara county's exhibit?" It is worth the money we paid for it? Does Southern California make a good showing, and how does our State building compare with others on the grounds?" In the first place, although our State building may be severely plain, severely homely and within a Moorish mission-house, white walled and red tiled, it contains what none of the other State buildings have. It has a complete set of buildings, her mines, her fields, her ranges and her products. Gold and grapes, wool and walnuts, oranges and orchards, and all of the numerous animals, birds and fish, progress in the realm of material things, but her poets and authors, painters and sculptors, have all sent the children of their genius to represent them in the California building.

The six counties of Southern California co-operated and have consolidated their exhibits, each county, ever, reserving a distinctive feature to Santa Barbara. Santa Barbara has the olive oil pyramid—a Cleopatra's needle made of several thousand bottles of golden olive oil, which is the right of the main entrance. Around the base of this is exhibited a large photograph of our California. Does it pay? If you could stand for a half hour and hear the explanation of the richness and variety of Southern California products, massed as they are, the Eastern States would be amazed.

Santa Barbara representative all about the golden olive oil, the mammoth oranges and lemons and the beautiful fruit and land, distance from the price of living, and a thousand and one things a visitor would feel perfectly satisfied with the small expenditure of money required to keep up his month's adventure to Santa Barbara.

Quantities of appropriated \$40,000, Santa Barbara county \$5000, yet we doubt very much if Santa Clara's exhibit at Eastern Exposition, who has purchased the Santa Barbara's brings here. The Midwinter Fair will bring hundreds of Eastern buyers, who will purchase the State that makes such a magnificent exhibit. Santa Barbara's exhibit is here all agree that Santa Barbara should have something to draw them from "Francisco's" exhibit.

The only question is, who will take the initiative?

A young fellow named Max Anderson came here several days ago and stopped at the Commercial. It is said that he was a student at the University of California, and that he was here to see the State that makes such a magnificent exhibit. He was here to see the State that makes such a magnificent exhibit.

## TOLD HIS STORY.

## The Accused Murderer on the Stand.

Swore That He Did Not Stab Guet How.

Judgment Signed Against the Terminal Company.

Its Tracks in South Pasadena Declared to Be a Public Nuisance by Judge Shaw.

The defense in the Chinese murder case added the last link to the chain of evidence yesterday afternoon, and about all that remains to be done now is for the jury to decide whether or not Quon Toy Ying's neck is to be saved from the gallows. The accused murderer of the pretty Chinese girl, Guet How, was put on the stand to testify in his own behalf when court convened yesterday morning, and he occupied the chair nearly all day. He answered questions quite glibly and strictly adhered to the general line of defense mapped out and followed by former witnesses.

The defendant took the stand very quietly and proceeded to narrate his story in a low voice. He said that he had long loved the almond-eyed Guet How, and on the night of June 6 had made preparations to elope with her. About 8 o'clock in the morning he had gone to the place where Guet How was lodged, with two friends who were to aid in the flight. Ah Lip, the woman's keeper, was much enraged when he learned of the intimacy which had grown up between the witness and Guet How, and on that night had become very suspicious. After entering the girl's room on that morning the witness heard footsteps, and before he could conceal himself, Ah Lip came in. The latter was very angry, and muttered that it would be a good time to kill them both, meaning Ying and How. Seeing something in his hand, and thinking it was a pistol, the witness had pulled his pistol and shot Ah Lip, but not before the latter had stabbed the girl. Witness fired three shots at Ah Lip, and then fled, being afraid that Wong Chee's "hatchet men" would kill him if he did not get out.

"What did you mean when you testified to your friends to save your life, in that note written at the County Jail?" asked Mr. Cheney.

"Well, I was afraid that I might stay in jail until I died," was the response.

"Did you not know that you were to be tried for killing Guet How and not Ah Lip?"

"Yes, but I thought that Ah Lip was not well yet and that he might die."

At 3:30 o'clock the defense rested their case, when testimony in rebuttal was introduced.

Officer McKenzie testified to the good reputation of Lem Loon, the man who gave the most damaging evidence in behalf of the prosecution, when he stated that Guet How had said that Quon Toy Ying stabbed her. Officer Stewart testified to the same effect, as did also Officer Smith.

The case will probably be argued this afternoon.

JUDGMENT SIGNED.

It looks now as if the Terminal Railway Company has been left without a legal leg to stand upon in regard to its trouble with South Pasadena over a violation of the provisions of the franchise granted under which it has held right to operate the road through that city. Judge Shaw last week rendered an opinion in which he decided adversely to the company, and yesterday, in accordance with that opinion, he signed the following judgment:

"This action came on regularly for trial before the court, sitting without a jury, the same having been waived, on May 24, 1893, all of the parties appearing, the evidence of the respective parties was introduced and, after argument, the cause was submitted to the court for its decision, and now, the court having made, rendered and filed its decision in writing and ordered judgment in favor of the plaintiff and against the defendant, it is now, by the court, in pursuance of the said decision, hereby ordered, adjudged and decreed:

"That the ordinance passed and adopted by the city of South Pasadena, and set forth in the plaintiff's complaint herein, and all the conditions thereof are valid and binding upon the defendant.

"That the defendant has violated, and is continuing to violate the condition and provision in said ordinance with respect to the round-trip fares between its stations in said city of South Pasadena and the business center of the city of Los Angeles.

"That by reason and because of said violation by the defendant of the terms and conditions of said ordinance the defendant has no right to hold and maintain any of the franchises or right-of-way granted to it by said ordinance, over, along or across any part of either of the public streets in said city of South Pasadena, known and designated as Arroyo drive, Palm avenue, Sylvan avenue, Central avenue, Prospect avenue, Meridian avenue and Fair Oaks avenue.

"That the line of track of the said plaintiff's railroad, and all other improvements or erections made by defendant and now existing in or upon any portion of either of said above named streets, in said city, constitute and are a public nuisance, and that all of the said track and all the improvements and erections made by the said defendant, and existing in or upon any part of either of said public streets, be abated.

"That the defendant, its agent, attorneys and servants be, and they hereby are, perpetually enjoined from operating or running any locomotives, car, or train of cars, over, along or across any part of either of said public streets, and that the plaintiff do have and recover of and from the defendant its costs in this action incurred.

Irrigation Literature for Southern California—Valuable Information.

Ten thousand copies of the pamphlet entitled, "Irrigation in Southern California," issued for the use of the delegates to the International Irrigation Congress, to be held in this city, October 10-15, are just from the press and ready for distribution. They are neat, attractive, concise, filled from cover to cover with valuable information concerning irrigation in Southern California. This information embraces history, statistics, advantages and methods of irrigation; "What Water Has Done," and "Irrigation Systems of Southern California," detailed by counties; together with "The Wright Act," "Irrigation Securities," and a brief sketch of "Where the Congress Will Meet." The book is written by Harry Ellington Brook, and is published by the Publishing Committee of the congress, consisting of Messrs. Fred L. Allen, C. D. Willard, George Rice, I. H. LaVeen, R. E. Archer, Harry Brown, A. Phillips, T. R. Merry.

These pamphlets will be sent to all the leading newspapers of the country, and spread as widely as possible, where they will do the most good in stimulating interest in the coming congress. Large numbers are being mailed to foreign countries, scientific societies, libraries, and to educational associations. The illustrations of irrigating ditches, aqueducts, dams, canals, flumes and pipe lines, artesian wells, irrigated orchards and fields, are electrotyped from pen drawings, so that newspapers throughout the country can secure the loan of such pictures if desired.

R. Conroy, assistant director-general, in charge of the foreign commission, has just written the Chamber of Commerce requesting 1000 copies of the pamphlet, which he desires to distribute among foreign engineers and applicants, in connection with the Department of Publicity and Promotion just established. He states that he feels sure that such a step will prove mutually beneficial.

## TOLD HIS STORY.

## The Accused Murderer on the Stand.

## Swore That He Did Not Stab Guet How.

## Judgment Signed Against the Terminal Company.

## Its Tracks in South Pasadena Declared to Be a Public Nuisance by Judge Shaw.

The defense in the Chinese murder case added the last link to the chain of evidence yesterday afternoon, and about all that remains to be done now is for the jury to decide whether or not Quon Toy Ying's neck is to be saved from the gallows. The accused murderer of the pretty Chinese girl, Guet How, was put on the stand to testify in his own behalf when court convened yesterday morning, and he occupied the chair nearly all day. He answered questions quite glibly and strictly adhered to the general line of defense mapped out and followed by former witnesses.

The defendant took the stand very quietly and proceeded to narrate his story in a low voice. He said that he had long loved the almond-eyed Guet How, and on the night of June 8 had made preparations to elope with her. About 8 o'clock in the morning he had gone to the place where Guet How was lodged, with two friends who were to aid in the flight. Ah Lip, the woman's keeper, was much enraged when he learned of the intimacy which had grown up between the witness and Guet How, and on that night had become very suspicious. After entering the girl's room on that morning the witness heard footsteps, and before he could conceal himself Ah Lip came in. The latter was very angry, and muttered that it would be a good time to kill them both, meaning Ying and How. Seeing something in his hand, and thinking it was a pistol, the witness had pulled his pistol and shot Lip, but not before the latter had stabbed the girl. Witness fired three shots at Lip and then fled, being afraid that Wong Chee's "hatchmen" would kill him if he did not get out.

"What did you mean when you appeared to your friends to save your life, in that note written at the County Jail?" asked Mr. Cheney.

"Well, I was afraid that I might stay in jail until I died," was the response. "Did you not know that you were to be tried for killing Guet How and not Ah Lip?"

"Yes, but I thought that Ah Lip was not well yet and that he might die."

At 3:30 o'clock the defense rested their case, when testimony in rebuttal was introduced.

Officer McKenzie testified to the good reputation of Len Loon, the man who gave the most damaging evidence in behalf of the prosecution, when he stated that Guet How had said that Quon Toy Ying stabbed her. Officer Stewart testified to the same effect, as did also Officer Smith.

The case will probably be argued this afternoon.

JUDGMENT SIGNED.

It looks now as if the Terminal Railway Company has been left without a legal leg to stand upon in regard to its trouble with South Pasadena over a violation of the provisions of the franchise granted under which it has held right to operate the road through that city. Judge Shaw last week rendered an opinion in which he decided adversely to the company, and yesterday, in accordance with that opinion, he signed the following judgment:

"This action came on regularly for trial before the court, sitting without a jury, the same having been waived, on May 24, 1893; all of the parties appearing, the evidence of the respective parties was introduced and, after argument, the cause was submitted to the court for its decision, and now, the court having made, rendered and filed its decision in writing and ordered judgment in favor of the plaintiff and against the defendant, it is now, by the court, in pursuance of the said decision, hereby ordered, adjudged and decreed:

"That the ordinance passed and adopted by the city of South Pasadena, and set forth in the plaintiff's complaint herein, and all the conditions thereof are valid and binding upon the defendant.

"That the defendant has violated, and is continuing to violate, the conditions and provision in said ordinance with respect to the round-trip fares between its stations in said city of South Pasadena and the business center of the city of Los Angeles.

"That by reason and because of said violation by the defendant of the terms and conditions of said ordinance the defendant has no right to hold and maintain any of the franchises or rights-of-way granted to it by said ordinance, over, along or across any part of either of the public streets in said city of South Pasadena, known and designated as Arroyo drive, Palm avenue, Sylvan avenue, Grevalia avenue, Prospect avenue, Meridian avenue and Fair Oaks avenue.

"That the line of track of the said plaintiff's railroad, and all other improvements or erections made by defendant and now existing in or upon any portion of either of said above named streets, in said city, constitute and are a public nuisance, and that all of the said track and all the improvements and erections made by the said defendant, and existing in or upon any part of either of said public streets, be abated.

"That the defendant, its agent, attorneys and servants be, and they hereby are, perpetually enjoined from operating or running any locomotives, cars, or trains of cars, over, along or across any part of either of said public streets, and that the plaintiff do have and recover of and from the defendant its costs in this action incurred."

IN THE FEDERAL COURTS.

In the United States District Court election suits were filed yesterday by Truxton Heale, administrator of the estate of E. P. Beale, late a resident of Washington, D. C., against Mrs. A. Cookins, Ellis Foy, J. F. Talbot, T. Talbot and S. Short. Also the suit of Miss S. J. Williams vs. John Fred Coker of Salt Lake City. This suit is for the recovery of various sums of money and interest which were sent by plaintiff, then a resident of Boston, Mass., to the defendant, who acted as her agent, trustee and confidential manager, and which were not used for the purposes intended.

In the District Court yesterday Milo M. Putter and Joseph H. Bowen filed not guilty to the charge of obstructing and opening United States mail. Hear-

ing was set for October 25 next. The court meets again today at 10:30 a.m.

Court Notes.

BROOK'S BOOK.

Irrigation Literature for Southern California—Valuable Information.

Ten thousand copies of the pamphlet entitled, "Irrigation in Southern California," issued for the use of the delegates to the International Irrigation Congress, to be held in this city October 10-15, are just from the press and ready for distribution. They are neat, attractive, concise, filled from cover to cover with valuable information concerning irrigation in Southern California. This information embraces history, statistics, advantages and methods of irrigation; "What Water Has Done," and "Irrigation Systems of Southern California," detailed by counties; "Irrigation Securities," and a brief sketch of "Where the Congress Will Meet." The book is written by Harry Ellington Brook, and is published by the Publishing Committee of the congress, consisting of Messrs. Fred L. Allen, C. D. Willard, George Rice, I. H. LaVeen, R. E. Archer, Harry Brook, A. Phillips, T. B. Merry.

These pamphlets will be sent to all the leading newspapers of the country, and spread as widely as possible, where they will do the most good in stimulating interest in the coming congress. Large numbers are being mailed to foreign countries, scientific societies, libraries, and to educational associations.

The illustrations of irrigation ditches, aqueducts, dams, canals, flumes and pipe lines, artesian wells, irrigated orchards and fields, are electrolyzed from pen drawings, so that newspapers throughout the country can secure the loan of fine pictures if desired.

R. Cornely, assistant director-general in charge of the foreign commission, has just written the Chamber of Commerce requesting 1000 copies of the pamphlet, which he desires to distribute among foreign engineers and applicants, in connection with the Department of Publicity and Promotion just established. He states that he feels sure that such a step will prove mutually beneficial.

## EVENING ON JAPAN.

An Interesting Lecture by Dr. Cochran—Wednesday Work.

The Young Woman's Auxiliary of the Woman's Foreign Missionary Society of University Place held its monthly meeting Saturday evening, at the residence of Mr. and Mrs. Williamson, on Jefferson street. The meeting was of unusual interest, owing to the fact that Dr. Cochran, who has recently returned from the missionary field in Japan, was present and gave an interesting talk on missionary work in that country.

He alluded to the difficulty of learning the Japanese language, its construction being so entirely different from our own. After relating a number of anecdotes pertaining to the domestic life of the Japanese, he spoke directly of the missionary work now in progress among that people, every word being full of lively interest from beginning to end. His address was followed by recitations and music, making the "Evening on Japan" very enjoyable.

A letter was also read from a young girl whom this society is educating in the girls' boarding-school in Calcutta, India.

Notwithstanding that this was a mid-summer gathering and many away on vacation at mountains and seashore, there was a good attendance. Among those present were: Dr. and Mrs. Cochran, Rev. G. M. Smith, Mr. and Mrs. D. M. Welch, Mr. and Mrs. Williamson, Mrs. L. Graham, Mrs. A. W. Oliver, Mrs. E. W. Caswell, Misses Husk, Williamson, Adair, Cook, Davis, Murray, Tilden, Reed, Levering, Kline, King, Huyck, Duff, Lent, Mathews, Lillian Williamson, Sabina Adair, Jessie Adair, Miss Frazier of Delaware, O. Messrs. Smith, King, Davis, Walton, Martin, Lloyd, Whitlock, Bennett, Oliver, Tilden, Duff, Umstead.

Sunday morning Dr. Cochran supplied the pulpit of University Church, delivering an eloquent address on "The River of Life." The church was filled.

City Bank Depositors.

The Executive Committee of Five, appointed by the depositors of the City Bank, met at John T. Jones's office at 4 o'clock yesterday afternoon. It was decided to keep the rolls open for additional signatures until Wednesday at 4 p.m. A notice to that effect was ordered inserted in the newspapers.

The question of appointing an assignee was deferred until some future time. It is intended to have as many depositors as possible enter the organization, and then to institute proceedings against the stockholders.

During the ten years that I have been in Los Angeles I have treated and cured over 400 people who were afflicted with nearly every form of the various diseases that human flesh is heir to. Fully 90 out of every 100 that I have cured were wrecks that could not find relief in the other systems of medicine as practiced in Europe and America. Over 500 were given up by doctors and friends to die. A Piles, Rheumatism, Dyspepsia, twenty-five forms of Consumption, Asthma, Bright's Disease, Blindness, Insanity, twelve forms of Heart Disease, Cancer, Tumors, Skin and Blood Diseases of every description.

In my system of medicine there are over 800 different diseases. I cure 387 of them. I use over 3000 kinds of herbs (no poisons) which I import direct, and which have been used in China 2000 years. I locate and describe all diseases by feeling the pulse, and in five minutes time. Consultation and examination free.

WEDNESDAY we begin a cleaning-up sale in our Muslin Underwear Department—a regular mark-down on every garment. Ladies', Misses' and Infants' Muslin Underwear will be sold regardless of value. We have decided to change the entire character of our Muslin Underwear Department and place it upon a basis of the greatest activity. Every piece must go. New goods will take the place of these and the basis of business will more than treble from the start. Tomorrow we will give you an insight into the value and character of these offerings. We anticipate a big crowd, as the bargains will be the best we ever offered. Watch for tomorrow's ad, watch for our window display. It is coming—an Underwear sale of the largest proportions. Today, closing out the balance of odds and ends in Corsets at one-half the regular price; they are growing beautifully less. Yesterday made a very big hole in the piles upon our tables. A few, and only a few, dollar cloaks left; a few, and only a few, of the four-dollar Cloaks left; a few, and only a few, of the silk and satin-lined All-wool Cloaks for \$5 left. No more after this lot is gone. We are stirring up the cloak trade—this is recognized headquarters. We are stirring up the Corset trade. Wednesday we begin to stir up the Muslin Underwear trade, and we will stir it. Watch for Wednesday's "ad." We do business upon an honorable basis and take no merchant special lines and cut the price; this is considered disreputable and dishonorable by all classes of business and is never indulged in by reputable merchants; it is like quackery among physicians. Wednesday a special sale of Muslin Underwear. Today we let out a few more Nightgowns at \$1.25, worth \$1.75, worth \$2, worth \$2.25, worth \$2.50—now, today, \$1.25. This is only a starter; big bargains may be expected. A few more Drawers today, 75c, were \$1.25—they are going, going, going. The Underwear sale begins in earnest tomorrow. Today we will give you a prelude—come. It is selling time at Sheward's, it is the time of the year for bargains, it is buying time—come today.

See our windows for the best couch for the least money ever offered. All colors. Well made.

### STOLE A BICYCLE.

A Young Man's Plan to Increase His Finances.

Captured in the Act and Turned Over to the Police—He is Believed to Be Well Connected in New York.

Detectives Auble and Benson placed under arrest yesterday afternoon a young man whose general appearance marks him as being above the usual run of criminals in education and breeding, and to whom crime is as yet somewhat of a novelty.

Early in the afternoon a bright-looking young man called at a bicycle agency on Fourth street and said that he desired to rent a wheel. The proprietor of the place, wholly unsuspecting, being assured by the honest appearance of the fellow, did not hesitate to furnish the desired bicycle, and had it not been that the man pushed the wheel off down the street instead of mounting it, his suspicions would probably not have been aroused.

Noticing this peculiar act on the part of the fellow, he said nothing, but got on a wheel himself and quietly followed up his "customer." The man at once ran the wheel around to another agency on Fifth street and there offered it for sale.

The agents at this place finally offered him \$50 for the wheel, but insisted that a bill of sale be produced explaining how the seller came by it before the sale was concluded. The young man said that it would be no trouble to get this at all, and started out, saying that he would soon return with the requisite papers. When he had gone the owner of the wheel crossed over from the other side of the street, where he had been standing, and, upon finding out what had transpired, immediately telephoned to the police station for an officer.

Detectives Auble and Benson answered the call, and they reached the place before the bicycle thief returned. He came back very shortly, carrying in his hand an alleged bill of sale of the wheel and an affidavit purporting to show where the same was purchased at a Victor branch agency. Of course, all of the papers were forged, and the officers lost no time in placing their man under arrest. At the station the fellow absolutely refused to talk, and gave a name that the police have reason to believe was assumed.

The strangest part of the whole affair is that the young man is supposed to be highly connected in New York, and that his name is Edward Belmont. The detectives were some time in finding out where his room was, but this they finally did, and had his effects taken to the private office at the station. The man's trunk was found to contain a large and varied assortment of articles, nearly all of which bore the name of Edward Belmont. Among other things was a handsomely bound volume bearing upon the fly leaf the complimentary words of Jerry Rusk, Secretary of Agriculture.

There was also a diploma of graduation from the city schools of Brooklyn, photographs of Niagara Falls and of persons evidently belonging to the young fellow's family. A Bible was also found, which bore in a woman's handwriting, evidently that of the mother, the words on the first page "Keep out of bad company, Ed." The trunk was filled to the lid, and contained many other things—articles of wear, a policeman's bill, a box of hair dye, etc.

That the young man's name really is Belmont there seems scarcely any doubt, and it is believed that he wishes simply to hide his identity by going under an assumed one.

Arraigned for Robbery. John Bray was arraigned for robbery before Justice Austin yesterday. He had been arrested late the night before by Officer Craig of Sichel street. The officer happened to see Bray while he was going through the pockets of a man named David Wilson, who was a good deal intoxicated at the time. Justice Austin ordered that Bray be held for the Superior Court and that his bail be fixed at \$1000.

Jail Arrivals. There were three additions to the guests at the County Jail yesterday. John Adams was brought there by Constable Wells of Azusa and put in for five days for vagrancy. Pietro Biadact was brought in for misdemeanor by Constable Hamilton of Los Nietos. Constable Slater of Pasadena brought F. Ballester, who will remain five days for disturbing the peace.

IT'S QUITE A STEP from the great, gripping, dreadful pills to Doctor Pierce's Pleasant Pellets. See what an advance there is:

These little Pellets, scarcely larger than mustard seeds, are the smallest and the easiest to take—tiny, sugar-coated granules that every child is ready for.

They act in the mildest, easiest, most natural way. No violence, no reaction afterward, and their help lasts. They permanently cure Constipation, Indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels.

They're put up in sealed vials. This keeps them always fresh and reliable, unlike the ordinary pills in wooden and pasteboard boxes.

They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

No matter what you've tried and found wanting, you can be cured with Dr. Sage's Cathartic Remedy.

Will Prevent Disease.

PASADENA, March 13, 1890. Morris Poultry Cure Co. DEAR SIR:—We have thoroughly tested your wonderful cure for poultry, and find it all that you claim. It will not only prevent disease of all kinds and keep fowls healthy, but will cure swelled head, roup and scaly legs. When we received the first order of your Poultry Powders we had several fowls very sick in our coop. We administered your cure, and in a few days they were all well. BIEDEBACH BROS., Dealers in Fish and Poultry. Very respectfully, JNO. C. MCCOY.

Deservedly Popular. SANTA ANA, CAL., Oct. 1, 1890. Morris Poultry Cure Co. DEAR SIR:—I am glad to testify to the merits of your deservedly popular Poultry Cure. One box of the cure, given according to your printed directions, saved the lives of a dozen turkeys (six weeks old) when they were very near unto death with "sour head." They are now in prime condition for Thanksgiving. Very truly, Yours respectfully, FRANK N. CUNNINGHAM.

All Got Better at Once. FIRENO, CAL., Jan. 10, 1892. Morris Poultry Cure Co. DEAR SIR:—Allow me to congratulate you on your wonderful remedy. My poultry all got better at once. I have not one sick chicken out of the thirty I had sent to you for it; they all are cured. I wish you would send me a 2 pound can and oblige. Yours respectfully, All Got Better at Once.

## The Paper Better Than Ever!

A department particularly adapted to the peculiar character of our Southern California agricultural and horticultural interests, carefully prepared by a practical and educated farmer, will, in the future, be a valuable feature of the SATURDAY TIMES and WEEKLY MIRROR, and will also appear in the daily issue each Saturday. A Southern California News Page is also published weekly. These features, with the variety, reliability and general excellence of the other departments, render this paper infinitely superior as a general family newspaper to any weekly publication in the Southwest.
